Effective: December 14, 2021

Legislation: Senate Bill 229

---

Each science, technology, engineering, and mathematics school and its governing body shall comply with sections 3313.603 and 3313.6027 of the Revised Code as if it were a school district. However, a STEM school may permit a student to earn units of high school credit based on a demonstration of subject area competency instead of or in combination with completing hours of classroom instruction prior to the adoption by the state board of education of the plan for granting high school credit based on competency, as required by division (J) of that section. Upon adoption of the plan, each STEM school shall comply with that plan and award units of high school credit in accordance with the plan.
